National Qualification Framework

The three regulatory authorities have updated the National Qualifications Framework for England, Wales and Northern Ireland as part of a review of regulatory arrangements. (The three regulatory authorities are QCA, ACCAC and CCEA).

The NQF is designed to help with career progression and act as a guide to learners to make informed decisions about their training needs.

It aims to:

- promote access, motivation and achievement in education and training, strengthening international competitiveness
- promote lifelong learning by helping people to understand clear progression routes
- avoid duplication and overlap of qualifications while making sure all learning needs are covered
- promote public and professional confidence in the integrity and relevance of national awards.

The following table provides an indication of the new frameworks.
