

Telecoms Installation Engineer

Employer: Wildcard Networks

An ideal opportunity to start your career in the growing telecoms and fibre optic industry with full training provided, and no previous experience required. Great career progression at a locally focused dynamic company.

The role:

- Installation of network infrastructure, including external underground/overhead cabling, internal structured cable installation, and supporting infrastructure (e.g. splices, fibre terminals, patch panels, cabinets).
- Assist with underground telecoms duct surveys and route proving based on existing duct network plans, rope & roping activities, and network planning.
- Report progress, defects, and blockages to the operations team.
- Installation of high-speed radio links, working from a MEWP (Cherry-picker) or on roof-tops.
- Assist with installation/maintenance projects and general housekeeping within our datacentre/network facilities.
- The role will involve some out of normal hours working.

The company

Wildcard Networks is a rapidly growing datacentre and connectivity provider based in Newcastle upon Tyne. Our regional Reliance House datacentre, regional fibre/wireless network, and national high-capacity network allow us to provide flexible, high-speed, but cost-effective connectivity solutions to local residents, businesses and partners through our Fibreconnect brand.

The qualifications you will receive

Industry Accreditations depending upon responsibilities and progress through training, but as a minimum would include:

- Openreach accredited training (PIA)
- NRSWA (To work in the public highway)
- Splicing and Jointing training

Entry requirements

Must have GCSEs grades A-C (4+) in English and Maths. A full clean driving licence is required due to the field nature of the work. Applicants must be willing to work outdoors and at height.

We welcome applicants with no previous experience who have a genuine interest in the role, full training would be provided.

Skills required

- Excellent communication skills
- Self-motivation
- Confidence and determination
- A good technical interest
- Great problem-solving skills
- Team player
- High level of work ethics

Personal qualities

- Hardworking
- Ambitious
- Committed
- Flexible
- Enthusiastic
- Willingness to learn
- Ability to use initiative
- Trustworthy

Salary

£24,500 to 30,000 per annum depending on prior experience. Reviewed 6-monthly based on progression and job responsibilities.

Hours of work

Typically, 37.5 hours/week Mon-Fri rostered during core hours of 9am-5pm. Some out of hours (evenings and weekends) working will be required due to the nature of the work (scheduled by rota in advance by at least 4 weeks).

Duration

Permanent contract. Subject to 3-month probationary period.
